Earnings per share is calculated by dividing the Group's profit for the period attributable to ordinary equity holders of the Company by the weighted average number of 1,176,000,000 (six months ended 30 June 2016: 1,176,000,000) ordinary shares (inclusive of shares that may be issued under the convertible instruments issued by the Company in 2011) outstanding during the period.

There were no potentially dilutive ordinary shares in existence during the six months ended 30 June 2017 and 2016 and therefore the diluted earnings per share amounts for those periods were the same as the basic earnings per share amounts.

Cash at banks earns interest at floating rates based on daily bank deposit rates. The bank balances and pledged deposits are deposited with creditworthy banks with no recent history of default.
